SHERMAN HITS CURRENCY BILL

ILLINOIS SENATOR JOINS FINANCIERS IN DENOUNCING MEASURE.

SPEAKS AT BANKERS, MEET

General Protest Advised by Iowan—Business One of Credits, Not Cash Alone, D. R. Forgan Explains.

Chicago, Sept. 26.—President Wilson's currency reform plans took up most of the time at the opening session of the state bankers' convention here. Senator Lawrence Y. Sherman and others criticized the measure.

"When my business is controlled by another it is not my business," Senator Sherman told the bankers. "The currency bill seeks to have the federal government control the banks. My business may be regulated to the advantage of all concerned. Regulation is what is needed in the banking business, not the control the present bill proposes.

"Some publicists have a mania for invading individual rights by legislation. Their entire activities are expended in the words 'Be it enacted.' Whether a law is adapted to the underlying conditions or whether it does violence to every human experience, to them is of no consequence. Their sum total of human effort is to talk.

"It is undeniable that in certain places there has existed and now exists hostility to banks and bankers. There is no just reason for it now nor ever was. Banks and bankers in the aggregate are what they are individually in the community where they live and do business.

Bankers Not Dangerous.

"I do not regard a banker as a dangerous man in the community where I make my home. On the contrary, without exception, all of them I know possess the confidence of all of the responsible men there in agricultural, industrial and commercial life. Why men of this type, when considered in the aggregate, should be regarded by some lawmakers, public officers and political parties occasionally as a dangerous combination is singular, to say the least."

David R. Forgan, president of the National City bank, made the address of welcome to the delegates and he was followed by the president of the Bankers' State association, J. D. Phillips, who delivered his annual address.

Forgan Is Alarmed.

"I notice the main topic to be discussed at this meeting is the new currency bill, and right so," said Mr. Forgan. "I wish we could hold a convention some day to explain the banking business as it is and explain it so clearly that even the politicians in Washington could understand it. If they had understood banking they would not have passed such a bill as the Owen-Glass bill, which, I think, will destroy banking."

A. F. Dawson, president of the First National bank of Davenport, Ia., told the bankers the worst features of the currency bill could be eliminated by amendments which would not disturb the underlying principles of the measure. He urged the bankers to protest, individually and collectively.

Other speakers were Homer J. Tice and Robert S. Seeds of Birmingham, Pa.

RODDEBERY DIES IN GEORGIA

Congressman Succumbs to Nervous Breakdown—Death Expected.

Thomasville, Ga., Sept. 26.—United States Representative Seaborn A. Roddenberry, who had been ill at his home here since Sunday, died on Thursday. A nervous breakdown had prompted him to leave Washington at the direction of physicians. It had been believed a short rest would restore him to health, and not until Sunday did his condition become serious.

Seaborn Anderson Roddenberry was born on a farm in Decatur county, Georgia, January 12, 1870. He was graduated from Mercer university at Macon, Ga., in 1891, and in 1894 was admitted to the bar.

MISTAKE IN DATING MADE ANOTHER SCHOOL ELECTION NECESSARY TODAY

A special election will be held at the North Dixon high school building this evening from 5 to 8 o'clock to approve of the issue of \$1,500 of the Loveland school bonds, an error being made in the dating of them at the last election. As a result of the election all of the saloons in the business district were closed all day.

STERLING WILL HAVE NO FOOTBALL TEAM

Sterling, Sept. 26.—Special to Telegraph—At a meeting of the high school football squad and the faculty, it was decided that the township high school would have no football team this year.

Lack of interest is given as the reason for the action. The faculty made a rule that no boy could play football unless he brought a written permit from his parents, and this ruling barred many players.

CAMP HOPE LIKES PRAISE.

One of the "boys" at Camp Hope called the Telegraph on the 'phone today to thank us for the writeup of their part in the rescue work at the Charles Johnson fire night before last. He said all the "boys" were delighted.

The Telegraph feels they richly deserved all the praise they got. They helped pay their debt to society by their honorable and heroic action.

JURORS EXCUSED.

The settlement of the Keenan vs. City of Dixon case, set for trial today in the circuit court, removed the only case set for trial today and accordingly the jury was excused until Monday. Tomorrow Judge Farland will render his decision in the matter of the purchasers at the Master's sale of the John A. Lutz property.

PROWLER TRIES TO TRAP DIXON WOMAN

MRS. CAL BROWN DISCOVERS A MAN CROUCHED BY DOOR IN DARK WAITING FOR HER.

Mrs. Cal Brown of 811 W. First street, was badly frightened last evening by the actions of a prowling man. Mrs. Brown was in the woodshed at the rear of their home when she heard a movement on the walk between her and the house. At first she thought it was a dog crossing the walk, but when she heard a slight disturbance directly at the door of the shed, which was closed, she was startled, and looked through a window to see the form of a man crouching beside the doorway, evidently waiting for her to come out, that he might spring at her.

Of course the lady was terribly frightened. She called to the man to go away, but he crouched motionless in the shadow. She then went to another window and called loudly for her husband. The man then ran into a vacant lot grown up with tall weeds, back of the house, and search did not disclose him. Mrs. Brown could get no idea of the identity of the prowler.

The terrible experience was a great shock to her. Drastic action should meet this cowardly whelp at his next appearance.

MRS. KEENAN GETS \$125 IN SETTLEMENT

CASE AGAINST CITY OF DIXON IS ARBITRATED IN CIRCUIT COURT TODAY

The case of Mrs. Jennie Keenan, vs. the City of Dixon, to settle which negotiations were carried on for several days, came to an abrupt termination this morning when it was called for trial in the circuit court; the parties interested agreeing to a settlement for \$125. Mrs. Keenan sued for damages alleged to have been received in a fall from the sidewalk on Crawford avenue, near the "famous" pile of wire, while that street was under improvement.

CHILD'S SKELETON IN MANSION WALL

GREAT EXCITEMENT IN CLINTON WHERE GROSS DISCOVERIES ARE BEING MADE.

Clinton, Ill., Sept. 26.—Special to Telegraph—The biggest crowd since the Snell will trial gathered here today from surrounding farms and villages to watch the search for more human bodies in the walls of the old Snell mansion, where startling disclosures were made yesterday.

A coffin holding the skeleton of a small child was found in an old mansion at Clinton built 40 years ago by the late Col. Thomas Snell. It is now being demolished. An inquest failed to throw any light on the mystery. The house has been untenanted since the death of Snell whose will, disclosing of a large fortune, was the subject of bitter litigation a few years ago.

SUBLETTE MAN WINS.

Another Lee county man is a winner in the Fort Peck Indian reservation drawing, Henry Beitz of Sublette being one of the lucky ones yesterday.

SIGNS POINT TO AN EARLY AND COLD WINTER

FOLLOWING INDIAN SUMMER, WINTER WILL PROBABLY APPEAR AHEAD OF TIME THIS YEAR.

They are having snow and very cold weather in the northwest and it is due to reach this part of the country in a short time, today, perhaps tomorrow, says the Rockford Star. It will last several days, or long enough to put the ice man into the discard and make the coal man smile his most satisfied smile. After awhile there will be a letup and Indian summer will occupy the center of the stage.

And we are going to have an early winter and it will be one of those old fashioned winters father used to kick against and mother used to say was healthful.

How do we know? Why, bless you, all signs point to it. Wild geese are already flying south, the robins, or most of them, are already gone. The grass on the lawns is beginning to curl up, dogs are barking a new kind of bark—hemlock, we imagine—buttermilk sours quickly, crickets are crawling far, far into the ground, worms have already crawled there, and there wasn't a single automobile accident yesterday. All these are sure signs of an early and strenuous winter. Meantime have your overcoat repaired and your shoes heavily tapped, as paradoxical as it may seem, there will be snow to burn.

STICK STAMPS ON CORRECTLY

CANCELLATION MACHINE MISSES IF STAMPS ARE NOT ON RIGHT.

Hereafter when you buy stamps at the postoffice the clerk will not tear them off the big sheet so they will be fastened, top to bottom. Rather, they will be torn so they will join side by side. This is in accordance with a new order and is intended to encourage the public to put stamps on mail matter side by side, the long way of the envelope, instead of one above the other. When the latter method is used the cancellation machine cancels but one stamp and the clerk has to hit the other stamp with a hand cancellation stamp. That requires time. It also provokes a clerk to find a stamp on any other corner than the upper right hand corner of the envelope and then the machine misses it entirely.

Uncle Sam wants people to be more careful how they stick on the stamp.

Lee County W. C. T. U. Convention

A goodly number showed their interest in the temperance cause by gathering at the Methodist church Thursday evening and were favored with a most instructive and entertaining program. Mrs. M. M. Lewis, county president presiding. The meeting was opened with prayer by Rev. Stebbins of the Congregational church. Lewis Leydig gave a piano number which was greatly enjoyed. A recitation by Mrs. Winnifred Frye was followed by a vocal number by Miss Ora Floto. Sec. Bailey then gave an address filled with lofty ideals and sound advice. His subject was "America and Her Perils." He said in part America has six great perils, but only three can be touched upon in so short a time. First, "The Lethargy of the Home." Incidents were told in which children were in great peril by coming in contact with vice and parents engaged in social pastimes or in perfect indifference as to where their children were spending their time. The next peril is the lack of the Bible in educational centers. A greater peril than the unthinking masses dream of, the greatest peril is the destroyer Alcohol. Faith in God and prayer, with constant vigilance, was largely dwelt upon throughout the address, as necessary to banish these perils from this great land of ours. A rising vote of thanks was given Secretary Bailey, showing the appreciation of his splendid heart to heart talk, as he called it.

Germans Killed in Mountains

The Alpine club in Switzerland has just issued its annual report, covering the year 1911. This shows that 133 mountain climbers were killed during the year, an increase of 33 over the preceding year. The greatest number (74) of these fatalities were in the Mountains of Savaria and Austria; then came Switzerland, with 39 deaths, and the rest were in the mountains of France, Italy, etc. The number of tourists who climbed mountain during the year is estimated at about 100,000. Of the mountaineers killed, the Germans furnished the largest number, then in order came the Austrians, Swiss and French. Englishmen, although inveterate mountain climbers, furnished but two per cent of the casualties; the reason given is that they always employ enough guides and have good equipment.

Making customers vs. making sales

We like to make sales--but we like better to make friends.

Copyright 1913
By The M. Black Co.

We never could see the profit in a sale that cost a customer.

We think of this every time we buy goods. We keep it in mind every time we make a sale. All our salespeople are trained to the same policy—"It is better to lose a sale than lose a customer's confidence."

That is why we never have goods too cheap to be safe.

That is why we sell Wooltex coats, suits and skirts.

And that is why we are making new customers daily---and keeping them.

And still the city well is bring up on itself the disfavor of residents of West Brooklyn. When repairing it is found that the size of the well is out of the ordinary and stock tools will not answer the purpose. The village is waiting supplies from the experts office with which to tackle the job of raising the lower portion of the broken pipes and this delay in their arrival is causing inconvenience to all patrons for they are compelled to go about town wherever they can secure water at a private well for water for their homes.

Charles Barnickel and Albert Barnickel of South Brooklyn were here on business Wednesday.

Forty hours Devotion services concluded Tuesday night at St. Mary's church. The services throughout were well attended and the sermons delivered by the pastors appreciated by the congregation. The newly erected altars were in place and illuminated with electricity which added greatly to the solemnity of the occasion. The high altar, a \$1000 structure, donated by the Foresters of this city, is grand and attracts the admiration of everyone who gaze upon it. The side altars are also very beautiful and are a match for the high altar. The Frank Halbmaier family donated one of the side altars while Mr. and Mrs. Leopold Henry donated the other—both being \$350 structures. The communion rail a gift to the church by the Society of Christian Mothers, also matches the altars, and looks very pretty. Its cost is \$300. It can thus be seen that with these substantial improve-

ments in the interior furnishings of the church, the edifice must have been very imposing to the eye upon an occasion like this when every day the church was packed.

When it comes to making a selection of reading matter for the long winter nights do not forget to remember the splendid clubbing offers this paper makes you. Through these offers you can secure the Chicago Daily Journal, The Chicago Record Herald, and the Chicago Daily Tribune at very low rates.

Charles Mackin was here on business Wednesday afternoon.

Adam Meyer of Chicago is visiting his sister and other relatives and friends here this week. His sister is Mrs. Albert Bieschke, Sr.

Refreshments served from 9 till 1 o'clock during the Foresters ball Oct. 15th in the opera house. The members of the court feel certain the dancers will appreciate this arrangement and have made extensive arrangements for it. Another rule they will establish is that there will be no dating ahead at the dance. This will give everyone an equal opportunity to enjoy the evening and this is what they wish for everyone.

Mr. and Mrs. Jacob Graf of Amboy were welcome visitors in our city Wednesday.

The West Brooklyn Cornet Band has been engaged to furnish the music for the Progressive party picnic at Compton the latter part of next week. The date will appear in our next issue, as it is in doubt at this time. The people of Compton say they are engaging a band for that big day and judging it according to what they can do. In other words, Compton is after a good band and it pleases the editor very much to know that they give West Brooklyn Band credit for ability and have engaged them. We feel sure the boys will show them that they will never have cause to regret engaging the Band from West Brooklyn and it is our prediction that a large crowd will accompany the boys to Compton to attend the picnic.

Not an agent's talk but facts and figures appearing in the policy are what counts and are only to be considered in choosing the company at which to insure your life. The Illinois Life guarantees to the insured right in his policy more money than he has paid to the company at the end of his policy period. Remember this when some agent comes to you and attempts to tell you some other policy is the best in the world. Some of the values of these so called Best Policies shrink into insignificance when compared with a really good policy. We should be pleased to have you consider an Illinois Life policy and will be glad to furnish you any information desired regarding their various kinds of policies. Remember the Illinois Life is the company that carries the guarantee on their policy. H. F. & O. L. Gehant.

Mr. and Mrs. David Burkardt visited here Tuesday.

F. W. Meyer went to Aurora Monday to ascertain what could be done with the city well here and also to secure tools necessary to make the repairs necessary.

Joseph Chaon Sr., hurt his hand severely Tuesday while helping his son Frank on the farm. The well rods had broken and in pulling the lower parts to the surface their chain broke and in some way Mr. Chaon's hand was cut and bruised. He had it bandaged and is suffering no great pain from the accident although he had to had to be very careful how he handled the member.

Our city has been deprived of many of its residents this week owing to the Mendota fair, for everyone who could leave his work was there taking in the sights and enjoying the entertainment provided there. The most of the people went Wednesday and Thursday.

On Oct. 8th the Elocution class of West Brooklyn will give their second entertainment in the opera house, and they invite everyone to attend. They have prepared a very good program and assure us that no one will regret the evening spent with them. Remember the night—Oct. 8th in the opera house.

Foremost New Zealander.

Sir Joseph Ward, New Zealand's most famous citizen, is known in the antipodes as the "terror of stenographers." As prime minister he would speak 300 words a minute. Everything about the man has been rapid. Telegraph messenger at fourteen, in six months he became an operator. Then to a merchant's office and thence to journalism. Municipal councillor at twenty-one, a mayor at twenty-five, he was a member of parliament at thirty. When Dick Seddon died such a man was obviously heir to the premiership of New Zealand. One of the pleasantest incidents in Sir Joseph's career is his refusal of a public subscription of \$90,000, got together when a big undertaking with which he was associated failed. The money was offered to his wife. Sir Joseph replied: "I am young and can work." He resigned his offices and ultimately paid all the creditors in full.

NEW FURNITURE FIRM TO START

CHIVERTON & QUICK WILL OPEN

OCTOBER 1ST.

By October 1 the new firm, Chiverton & Quick, will be transacting business in their new location, 221 West First street. For the past year W. F. Chiverton has been engaged in the furniture business on Hennepin avenue, and he has now taken H. L. Quick, of Ashton, into partnership with him and the firm will open up in their new location with a much finer and greatly enlarged stock of goods than has been handled before.

Mr. Chiverton is a practical furniture man, having spent a number of years in Keyes' store and for two years prior to starting in business for himself was employed in the Roper factory, where he gained valuable knowledge. He is well known in this city, having been raised here and having acquired a large number of friends.

H. L. Quick, who for the past four years has been employed by the Melville Clark Piano company in DeKalb, is well known in Dixon, having graduated from the Stearns business college, a former Dixon institution and having been for four years an employee of the Dixon Sun. He was at one time bookkeeper. In one of the Ashton banks. He has a wide acquaintance throughout the county.

INSPECT THE OREGON PAVE STREET FLUSHER

COMMISSIONERS ARE PLEASED
WITH OGLE COUNTY
PRODUCT.

Commissioners Van Bilbber and Schuler, while in Oregon yesterday, inspected the Etnyre street flusher, in response to an invitation extended the city council some time ago. They report the Oregon product to be an exceptionally well constructed machine which does its work excellently. The Etnyre flusher differs from nearly all the others manufactured in that the power to throw the water is furnished by a gasoline engine and centrifugal pump, while in many other makes compressed air pressure, which it is claimed is not as satisfactory, is used.

Furniture Made in Peasants' Homes.
More than half of the furniture shown and sold in Moscow (Russia) stores is manufactured, not in factories but in the homes of peasants, many of whom display great skill in woodworking, as well as in various other industries.

HERE'S LIVING COST REASON.

Chicago Record Herald—Who gets the money?

Abraham Bass, butcher and grocer at 2816 South State street, got quantities of it before Hattie Brown started a ruction just because a four-pound chicken weighed only two pounds when she got it home.

She complained to a policeman. As they entered the shop Bass slashed at something under the counter with his slicing knife.

The policeman found a string running from the scale beam to a pedal on the floor. By a gentle pressure of the foot on the pedal the butcher could afford to give the customer a pound of 45-cent meat "over-weight" and leave the surprised customer with half a pound short-weight when the meat was brought home. He had established a reputation for generosity.

"How many stores do you own?" asked Judge Newcomer in Municipal Court.

"Two, your honor."

"Well, if this kept up you'd own a dozen in a couple of weeks; \$50 will fix you, I guess."

Fishing is "Picking Up."

Local anglers will be pleased to know that fishing is picking up again, presumably on account of the cool nights, which has put "pep" into the game fish.

Ward Hall, of the Hoon & Hall grocery store, on the north side, had exceptional luck yesterday while fishing on the north side of the river along the rocks. Ward caught a black bass, and his enthusiasm is almost contagious. The fish is NOT on exhibition in the window of the grocery store.

CARD OF THANKS.

I realize that had it not been for the heroic work of Wm. Stauffer, Ellis Mason, a crew of neighbors who were filling shos at John Smythe's and Fred Lord's, my house would have been destroyed on the 24th. It goes without saying that I feel very thankful to each and every one who gave such timely and heroic service.
L. W. MITCHELL.

Dementown Doings

Because of the numerous elections which are becoming so "popular" in Dixon, Dementtown was again the mecca of the dry today. The election was on the north side and all the drink emporiums down town were closed.

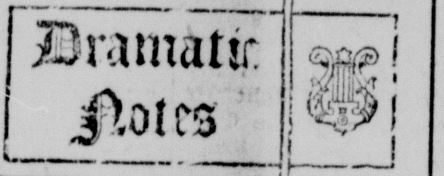

Peter Akeman, the pleasant producer of Akeman's horses, went to Oregon yesterday, where he demonstrated remarkable knowledge of the horses. That is, he went to Oregon—almost.

Had to Stay.

A certain Sterling minister is said to have driven in a cab to a small church out in the country to preach. On arriving at the place of worship the minister was somewhat disconcerted to find that the congregation consisted of only one man. Remembering that a well known minister had on one occasion preached to one man and converted him, he decided to go ahead. At the close of a good and long sermon he shook hands with his "congregation" and asked him if the sermon was too long. "Oh, it makes no difference to me," was the reply. "I am your cab man."

Helping Them Along.

Passengers on Northwestern railway passenger train No. 11 from Chicago Thursday were amused to receive the following card, copies of which were passed through the car: "Mr. J. W. Sack, occupying lower 6 Observation car on this train was married yesterday, and is enroute to Denver with his bride. You are cordially invited to call and congratulate Mr. Sack and express sympathy to the bride."

FAMILY THEATRE

The new bill at the Family Theatre which consists of Alice Teddy, the wrestling and roller skating bear, is the novelty of the season and the two large audiences enjoyed the act. At the matinee tomorrow Alice Teddy will hold a reception on the stage and give to each child a souvenir.

Americans in London Theaters.

It is interesting to notice that the increase in the number of visitors from the United States is said to be among the reasons that have induced the management of the Savoy theater to declare evening dress to be optional in the stalls. The convenience of the business man who is thus absolved from the necessity of taking a suitcase to his office, or hurrying home or to his club to dress, is also consulted. But the fact remains that managers like to see a well-dressed "house," which also adds to the amenities of the production.—London Globe.

Typewriter Comparatively New.

Inventors were at work over fifty years ago endeavoring to make a typewriter that could answer the purposes for which the machines are now used, but it was not until about 1873 that the device was so improved as to be made practicable. There were many machines constructed for mechanical writing which were in the main similar in principle to those in present use; that is, in the use of keys for manipulating movable type, but the difficulty was in getting machines to work satisfactorily.

Built-in Wardrobes.

Built-in wardrobes are more practical than old-fashioned closets, and they take up considerably more space. Modern wardrobes are usually two feet deep and four feet wide, with two doors. Garments are hung on wire hangers supported by a pole extending across from one end to the other. Arranged thus, when the two doors are open all garments are readily exposed. A wide shelf at the top takes care of the large hats so hard to provide for.—Pictorial Review.

Too Much Ceremonial.

A famous Ohio humorist says that a new rich family in Cleveland, who were beginning to put on a lot of airs, hired a colored girl just arrived from the south to act as their serving maid. Her new mistress insisted that all meals should be served in courses. Even when there wasn't much to eat it was brought to the table in courses. At the end of a week the girl threw up her job. Being pressed for a reason for quitting so suddenly, she said: "I'll tell you, lady—in dis yere house dere's too much shiftn' of de dishes far de fewness of de vittles!"

Must Settle Bills Before Wedding.

Mayor Joseph Mark of Metuchen, N. J., has decided not to marry any more persons, unless the bridegroom starts married life free from debt. A former citizen came back to South Bend River after an absence of two years with his mind set on matrimony. The wedding was held up until he settled a grocery bill of \$42, which had awaited his return. It was hard work to make the bridegroom see the necessity of paying the bill, but he did so when the mayor explained that there would be no wedding otherwise.

Willing to Prove Statement.

A little old woman shuffled into the dock at Tottenham, relates the London Mail. The Clerk—"Alice Mahon?" Prisoner—"Alice Mahon, aged sixty-seven, a native of Brighton, and a traveler from casual ward to casual ward." She was charged with being drunk and disorderly. "I only had two glasses of beer," she said, "and your worship will agree I couldn't get drunk on that." The Magistrate—"I don't know." The Woman—"I do. And I am ready to be tested."

Just Before He Fled.

"I don't see," observed Mrs. Bing, "why, when they are giving away all them offices, they don't let women hold something." "They would, my dear, but the women won't do it," answered her husband. "Well, I should like to know, John Bing, what they'll let them hold?" He took his hat, looked to see that the hall-door was open, and, in trembling accents, murmured: "Their tongues, my dear."

Gallo-Roman Villa Unearthed.
A Gallo-Roman villa has been unearthed in Paris in connection with the works for the underground railway near the Luxembourg. Traces of Roman remains are being discovered in Paris more numerous every year, and the remains of the villa just discovered might, we are told, rival those of some of the finest brought to light in Pompeii. It is not the first time that this villa is spoken of, as parts of the walls and atrium were uncovered years ago, when the works were in progress for the Luxembourg station, but now the entire villa has been laid bare, and it is found to have consisted of twenty rooms, with a large atrium and a piscina. It faced in the direction of the Rue Gay Lussac and the boulevard Saint Michel, and according to all appearances it was the most sumptuous private residence built in Paris during the Gallo-Roman period.—Paris correspondence London Telegraph.

Not Familiar With Price List.
A traveling man coming down from Kansas City shared his seat with a chap unused to traveling, the Chanute Tribune relates. The latter did not know where to go to lunch in Chanute and the drummer suggested the Harvey House. "Harvey House?" the other asked. "What's that? I never heard of it before." The salesman explained and when they reached Chanute he and the man went in to lunch. The one who did not know was very hungry and ate a hearty meal. When the waitress handed him his check he had consumed \$1.80 worth of Mr. Harvey's cherished cuisine. It looked like a bill for a week's board to the man who had been hungry and he argued, but vainly, against the payment. "Well, sir," he said to the traveling man, "I wanted to know what a Harvey House was and I found out. I'll never forget as long as I live."

Dark Space Among the Stars.
Absolutely dark spaces among the stars have puzzled astronomers since the time of Herschel. In milky way photographs Dr. Kopff has noticed an almost complete absence of faint stars immediately around certain nebulae, with an abundance of such stars within the nebulae and far outside. A late suggestion by Dr. Espin is that the margins of such nebulae may be too diffuse to become illuminated and yet dense enough to absorb light. If such an assumption be made he finds that it explains not only the blank surrounding spaces, but the dark holes and lanes within the bright nebulae.

French Working Hours.
The first edict regulating the hours of labor in France was the decree of 1848, which provided that "the day of the laborer in manufactures and workshops shall not exceed 12 hours of effective work." In 1892 a law was passed regulating the labor of children, women and girls, but not affecting male workers. Then came the modification of 1900, limiting the hours of all employees to 11, and also providing that from March 30, 1902, the legal day of labor should be reduced to 10½ hours, and two years later to 10 hours, except in cases or under conditions making a longer day necessary.

Live Baby as Football.
A dozen boys playing football with a pasteboard box in a vacant lot in Brooklyn sat down to rest after an hour's play. "That's a funny-looking box," said one of them. "Let's see what's inside." They untied the strings. A four-days-old baby boy, naked and to all appearance dead, rolled to the ground. A policeman took it to a hospital. Half an hour later it was crying lustily. It will probably live.—New York Sun.

SAVE YOUR HAIR! IF IT IS FALLING OR FULL OF DANDRUFF--25C DANDERINE.

Ladies! Men! Here's the quickest surest dandruff cure known

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff--awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die--then the hair falls out fast. A little Danderine tonight--now anytime--will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application, your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy, and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair--new hair--growing all over the scalp.

Many Aids to the Surgeon.

There is no valid reason why frog-skin should not be used for grafting on to human beings, says a London surgeon. Frog-skin has been extensively used and with much success in America for experiments. Among others substitutes for human skin the Americans have used rabbit and calf skin. Quite recently the white lining or membrane of egg shells was used. The lining of egg shells is really the skin of embryonic chickens. All cases in which this egg shell skin has been used have been very successful.--Tit-Bits.

Letter Made All the Difference.

An Englishman who had been for a tour around the world was much annoyed with a report of his return, which appeared in a local paper. This report ended: "His numerous friends are surprised that he is unchanged!" He did not know that the offender was the compositor, who, in setting up the report, had omitted a letter "c," thus substituting the word "unchanged" for "unchanged," which the reporter had written.

New Type of American.

One of the effects of the life of the American people on the isthmus has been the development of a new type--the "Zone-American." First, this type will be identified by its sterling moral character; then, by its independence, greater even than the independence of the average American. The melting together of different standards of life has taught many of the Zone-American families that the fine art of living is to be found in the home and in the family circles, rather than in the false life that seems so attractive in the great American cities "back home"--Christian Herald.

Balzac's Copy.

The prolongation of the Rue de Rennes on the left bank of the Seine, at Paris, France, has already condemned the famous Passage du Pont Neuf, described by Zola in "Therese Raquin," and it now seems that the house in which Balzac installed his printing office in the Rue Visconti, or the Rue des Marais, as it then was, is also doomed. It has been said that the failure of the printing business was the direct result of the enormous labor entailed in making corrections in Balzac's manuscripts. "A compositor did his hour of Balzac as a convict did his imprisonment," wrote Champfleury. The stupendous task of setting up Balzac's manuscripts is shown by the fact that "Cesar Birotteau" had to be recomposed fifteen times in twenty days.

Two Puzzles.

The traveler in foreign lands who sees many things that on account of their strangeness amuse or perplex him should remember that he himself and many of his possessions are quite as much a source of wonder to the native of the country. A contributor to the New York Tribune aptly illustrates the point. A mandarin from the far interior of China dined with me in Peking the other evening. In his honor the dinner was very Chinese. One course consisted of eggs apparently quite whole, yet within them was a delicate salad of mushrooms, lettuce, nuts and mustard. "It puzzles me," I said to the mandarin, "how all these things are put inside a whole egg." My guest took up an uncut magazine from a table. "But it puzzles me still more," he said, "how you manage to put printing in there."

SCHIFF REFUSED RETURN OF GIFT

Says He Wouldn't Consider Proposal to Take Back Sulzer Donation.

MISSING WITNESS IS FOUND

New Contributions Bared After Impeachment Court at Albany, N. Y., Permits Such Evidence to Be Introduced.

Albany, N. Y., Sept. 26.--Nine devoted opponents marked the impeachment trial of Governor Sulzer. They were as follows:

Jacob H. Schiff, a New York banker, testified that he was recently asked by Samuel I. Frankenstein, a former law partner of Governor Sulzer, if he would accept the return of the alleged \$2,500 campaign contribution which the banker on Wednesday said he gave to the governor without restriction as to its use. Mr. Schiff said he had replied negatively.

The high court, by a unanimous vote, decided to admit all testimony pertaining to campaign contributions made to the governor, even though they were not specified in the articles of impeachment.

This ruling paved the way for the introduction of evidence intended to show the governor had solicited and received large contributions from brewing interests.

The governor asked, according to the testimony, that these contributions be given in cash instead of checks.

Counsel for the impeachment managers said they were prepared to prove the governor received campaign contributions "vastly in excess" of the total mentioned in the articles of impeachment.

100 Not Accounted For.

There were more than 100 not accounted for, counsel asserted. The names of a large number of these contributors other than those of the brewing interests were brought into the evidence. These included 52 persons mentioned as drawers of Sulzer checks in the account of Louis A. Sarecky, the governor's campaign secretary, in the Mutual Alliance Trust company. This account showed, with checks and cash, that deposits of \$14,400 had been made between September 10, 1912, and the date of the governor's inauguration.

Decision on the question as to whether Sulzer's alleged misuse of checks given the governor without restriction as to their use constituted larceny was reserved to give the court an opportunity to investigate the authorities.

Sarecky, regarded by the prosecution as one of the most important witnesses and whom they said they had been unable to locate, was discovered by process servers in Albany and served with a subpoena.

No Restriction to Gift.

Judge Lewis J. Conlan of New York, a lifelong friend of the governor, testified that he had raised money for the governor's campaign, but had given it to him without restriction as to its use.

Sulzer called personally on Charles A. Stadler, president of the American Malt company, Stadler testified, and requested his aid in obtaining the support of Tammany hall. He said he obtained the support, and later solicited campaign funds for Sulzer.

The assembly managers decided last night to bring no more impeachment charges against the governor.

Stadler, who is a former state senator, declared that after several invitations from Sulzer he had visited the candidate to talk things over.

PEGOD IN NEW STUNTS

Daring French Aviator Performs Before Londoners.

London, Sept. 26.--The acrobatic French aviator, Alphonse Pegoud, gave London an exhibition of his aerial somersaults and topsy-turvy flying. Pegoud's maneuvers began when he had reached a height of 1,200 feet, where he tilted his aeroplane so that it was at right angles to the earth. The aviator rose to a height of 3,000 feet and accomplished his most sensational exploit. With a sudden swoop downward he threw the aeroplane on its back, flew in this manner for some seconds, righted his machine and repeated the performance before reaching the ground, where he was given an ovation.

GIVE THAW TO NEW YORK

New Hampshire Attorney General Tells Felker Papers Be Signed.

Concord, N. H., Sept. 26.--It was learned that Attorney General Tuttle of New Hampshire has advised Governor Felker to sign the extradition warrant for the return of Harry K. Thaw to New York state. The attorney general bases his opinion upon the fact that the extradition papers are in proper form, and that it is unnecessary for the governor in a case of this kind to go into details before signing the warrant.

SEES POLICY WINNING

Wilson Believes Moral Suasion Has Won Mexico.

President Next Step Will Most Likely Be Effort to Get Rebels to Attend Talks.

Washington, Sept. 26.--That the policy of moral suasion adopted by the United States toward Mexico had accomplished its two cardinal purposes--to obtain assurances that there would be a constitutional election and President Huerta would not be a candidate to succeed himself--is the belief of President Wilson.

Advices received here stating that General Huerta would support Federico Gamba, the nominee of the Catholic party, encouraged President Wilson and Secretary Bryan to believe that the Huerta government was carrying out what the United States had emphasized as the essential features of a satisfactory settlement of the troubles.

Doubt as to the value of the coming election as expressing the will of the Mexican people was cast, however, by constitutionalist headquarters here, which issued a statement saying its supporters, extending over many Mexican states, would not go to the polls. Many persons predicted the next step in the policy of the United States would be an effort to show indirectly to the constitutionalists the necessity of participating in the election.

Officials pointed out that Mexican law would hold the election constitutional if a majority of the polling precincts of the republic were shown to have been in legal operation.

San Diego, Cal., Sept. 26.--Declaring it the duty of the United States to intervene and restore order in Mexico, Senator Weeks, in delivering the oration of the day at the dedication of the site of a monument to Juan Rodriguez Cabrillo, took occasion today to severely criticize conditions in Mexico and the attitude of the United States.

Mexico City, Sept. 26.--The resignation of Federico Gamba as minister of foreign relations, tendered after his nomination by the Catholic party as presidential candidate, was accepted by Provisional President Huerta.

BIG LINER PASSES UP PORT

Heavy Sea Bars Passengers From Olympic at Queenstown.

Queenstown, Sept. 26.--After shunning Queenstown harbor, owing to a rough sea, the White Star steamship Olympic sailed for the United States, leaving nearly 250 enraged Americans in town to await another vessel. Ex-Senator William A. Clark took the chair at an indignation meeting and a resolution moved by Justice Chohalav of New York was adopted. This protested against the failure of the liner to enter the port.

After the Olympic sailed arrangements were made to provide passage for all the Americans and the mail on the Adriatic.

EXEMPT \$3,000 INCOME

TARIFF CONFEREES ALLOW FAMILIES \$4,000 UNTAXED.

Cotton and Ore Duties and Free Raw Wool Date the Disputed Issues.

Washington, Sept. 26.--The tariff conferees agreed on \$3,000 as the amount of income of a single man that shall be free from the income tax.

For a married man the exemption will be \$4,000, with no further exemption for children. Only one exemption of \$4,000 will be allowed for a family, even though the husband and wife have separate incomes.

After finishing all except about a half dozen of the points of difference between the senate and house the conferees ran into another deadlock and adjourned with the conference report incomplete. Three important matters are at issue--the duties on cotton yarns and cotton cloths and on lead and zinc ores, and the dates when free raw wool and changes in the woolen goods tariff should become effective.

There were rumors that strong opposition might develop in the house on the ground that the Republicans had not been taken into the conferees. If such opposition appears, it probably would take the form of a point of order that the report contains matter inserted without authority by the conference committee. In several instances the conferees have changed provisions in such a way that some members of congress assert new legislation has been added to the bill. The conferees insist, however, that they have acted wholly within their authority.

The senate conferees won out in their fight against the "anti-dumping clause."

MOOSE HEADS MEET PERKINS

Congressional Campaigners Hope for Success Everywhere But in South.

Washington, Sept. 26.--Three members of the Progressive congressional campaign committee, Representatives Falconer, Woodruff and Hinebaugh, left for New York to confer with George W. Perkins and other Progressive leaders on plans for the coming campaign. Representatives are convinced their party will make advantageous fights in districts in every state except those in the south.

LAXATIVE FOR OLD PEOPLE--"CASCARETS"

Salts, calomel, pills, act on bowels like pepper acts in nostrils

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. You may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

HEAD COVERED WITH DRY SCALE

Hair Came Out. Head Itched and Bled. Could Not Attend School. Two Cakes of Cuticura Soap and One Box Cuticura Ointment Cured.

2760 Tamm Ave., St. Louis, Mo. -- "My little daughter's head began with a dry harsh scale covering it. First it got a white scale over the top and then it got a dirty brown scab with pus under it. Her hair came out in less than a week and her head itched and bled. She had no rest. I had her wear a scarf all the time, it looked so badly. She was so sore and had such big brown scabs on her head that the teacher would not let her attend school."

"We took and had her treated for three months with no relief. She kept getting worse until I tried Cuticura Soap and Ointment. I used the Cuticura Soap every third day and the Cuticura Ointment at night. After three days the scabs began to come off and new hair to come in. In three weeks her head was well of sores. Two cakes of Cuticura Soap and one box of Cuticura Ointment completely cured her." (Signed) Mrs. Walter Rogers, Nov. 28, 1912.

Why not have a clear skin, soft white hands, a clean scalp and good hair? It is your birthright. Cuticura Soap with an occasional use of Cuticura Ointment will bring about these coveted conditions in most cases when all else fails. A single set is often sufficient. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card: "Cuticura, Dept. T, Boston."

Be sure who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

OF LOCAL INTEREST

SOME PEOPLE WE KNOW, AND WE WILL PROFIT BY HEARING ABOUT THEM

This is purely a local event. It took place in Dixon. Not in some faraway place. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed at Home is more worthy of confidence. Than one you know nothing about. Endorsed by unknown people. Julius Gottlieb, merchant, 418 W. First St., Dixon, Ill., says: "My back had been causing me trouble. Often it was so lame and sore that it was hard to bend over. The kidney action was irregular and I knew that my kidneys were disordered. Seeing Doan's Kidney Pills advertised, I got a supply at Leake Bros. Co's Drug store. They did such good work that I recommended them. I am glad to do so again."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States. Remember the name —Doan's— and take no other.

"HE CURES WITHOUT PAIN."
 This is the Statement Which We Have Heard in Regard to Dr. Frizelle's Treatment.

I originated the Electro-Cure System of treating and curing chronic diseases. My system is the scientific and perfect system and all the more wonderful because it is painless and pleasant. I do not cut, burn or injure the tissues; nor do I give vile, nauseating or harmful medicines to rub the teeth, stomach and heart; but I give special, pleasant remedies which are the right thing in the right place and my Special Tonic for the delicate Organs is the delight of every suffering or weak woman; and in connection with my sure, natural method of cure, all poisons are driven from the blood; ulcers and discharges disappear; burning, aching sides and distressing backaches vanish; dragging, bearing down feeling disappears, and soft, flabby flesh, weak muscles and poor blood are replaced by good solid flesh, strong muscles and pure blood. Catarrh of any part of the body is cured by method, the quickest of any cure by method, the quickest of any method known. Head noises, deafness from catarrh, neuralgia, pains in the head and face and chronic headaches of years' standing are cured by my method. X-RAY SHOWS DISEASE.

Remembered to Be Thankful.

At a recent dinner a speaker told of two youngsters of near the same age. The younger grew the more rapidly and after several years of regular "trimmings" in conflict with the other finally won his first battle. Later he repeated his victory more decisively. "That night he knelt by his mother to recite the day's events, and with the docket almost clear looked up at her with shining eyes. "Mother," he said joyously, "Isn't it good of God to give your little boy all the strength he is getting lately?"

Why He Liked Her.

A Cleveland young man went to a little evening party. This young man was introduced to several pretty girls, but he showed a preference for a certain one, and he led her to supper and distinguished her among all others by his favors. Finally he stammered forth his admiration thus: "I like you a lot!" "Why do you like me?" "You're the only college girl I ever liked." "But why am I?" "Aw—all the other college girls seem to know so much!"

New Compass a Success.

Naval officers appointed to test the new gyroscopic compass, which was installed experimentally on the destroyed Worden, have found it to be remarkably free from oscillation due to the rolling and pitching of the vessel. Experiments which have been made with the same compass aboard a submarine show that it enables a helmsman to steer a more accurate course when the vessel is submerged.

Household Cavalry.

King George's review of the Household Cavalry recently was the first which has taken place since Queen Victoria reviewed the crack troop in 1880. The Household Cavalry consists of the First and Second Life Guard and the Horse Guards. It is their duty to guard the royal residences and attend upon the king when he appears in public. On state occasions, the picturesque yeomen of the guard also are employed as a royal bodyguard. They consist of more than 100 officers and men, and wear the quaint uniform of the Tudor period, the same uniform that has been worn since this corps first was established by Henry VII.

Famous Statue in Mexico City.

One of the chief works of art in Mexico City is the bronze equestrian statue of Charles IV. It is called "The Iron Horse," and "The Little Horse." It stands in the Plaza de la Reforma. Visible from many directions, it serves for a landmark to visitors unacquainted with the southwestern part of the city. It was, according to Perry's "Mexico," the first important bronze statue made in America. Humboldt declared it the second finest equestrian statue in the world, the first being, in his opinion, that of Marcus Aurelius at Rome. It has ever been unpopular with the Mexicans. It has occupied several sites in the city, and its several removals have caused it to be dubbed "El Caballito de Troya" (the Little Trojan Horse).

TO LIVE LONG

A tendency to long life, as well as to certain diseases is inherited. Yet much can be accomplished toward prolonging life by proper care when well, and by suitable treatment when ill. Avoid excesses in all things. Most people who have lived to a ripe old age have lived frugally. Many people eat too much. By over-eating, not only will the stomach be worn out, but also the liver, kidneys and bowels and we might also add the nerve centers which supply these organs with energy.

Delay in securing suitable treatment as soon as any one or more of these conditions is realized, is unwise.

Dr. Prettyman has for over twenty years treated these diseases. You can consult him free at the Nachusa Hotel, Monday, September 29th.

FREED IN 'SLAVE' TRIAL

Kansas Man Freed by Judge's Interpretation of Mann Act.

No Commercialism to Case—Jury Obeys Pollock When "Personal. Escape" Charge Is Made.

Wichita, Kan., Sept. 26.—Lee Baker of Peabody, Kan., charged with white slavery, has been acquitted by a jury in the federal court here.

It is conceded that his acquittal was due to Federal Judge John C. Pollock's interpretation of the Mann white slave act.

Baker is a barber, thirty-five years old. He met Cora Slover, fourteen years old, at Peabody three years ago. During the summer of 1912 he went to St. Joseph, Mo., and the girl asked to be taken along, according to her statement to the jury.

They returned later to Peabody and were married by that time. A warrant had been issued for Baker's arrest. He went to Texas and soon afterward surrendered to the authorities.

Sacramento, Cal., Sept. 26.—Mrs. W. H. Moreland, wife of Bishop Moreland of the Episcopal diocese, successfully opposed a resolution offered by two members of the probation committee of the juvenile court, which provided for the dismissal of all proceedings against Marsha Warrington and Lola Norris, whose elopement to Reno, Nev., with Maury I. Diggs and F. Drew Cammelt resulted in the conviction of the men for violation of the Mann white slave act. The resolution was defeated by a vote of four to three, and the two girls will be taken before the juvenile court and placed under restriction.
